

A Word from An Industry Leader...

A close-up photograph of a person's hand pointing with their index finger towards a set of architectural blueprints. The blueprints are spread out on a surface, showing various lines and text. The hand is positioned on the left side of the frame, with the finger pointing towards the center.

“ Building owners may think the investment isn’t worth it...but they need to see that in the long run, they might not be able to afford not doing it.”

*George Smith
Materials Section Manager
Factory Mutual Research Co.*

A close-up photograph of a person's hand pointing with their index finger towards a blueprint or technical drawing. The drawing shows various lines, circles, and text, typical of an architectural or engineering plan. The hand is positioned on the left side of the frame, with the finger pointing towards the center.

A Word from An Industry Leader...

“ I am working tirelessly to get the SRS system installed in public schools; it’s not worth waiting for lives to be taken.”

Mary Breighner

*National Director of Education for
Public Entities*

Arkwright Insurance

Example: Manufacturing Company

(Nye Lubricants)

“As an ISO 9002 Company, planning for the continuity of operations is not only reasonable, but a requirement. It is comforting to have one less nasty surprise to be concerned about.”

*James B. McGowan,
Facilities Manager*

Example: SHOWCASE CINEMAS

“There is absolutely no question in my mind that the DMD-1000 provided our manager with the needed information in two instances to go and rectify the problem before it became catastrophic. There would have been over \$1 million in damage not including the fact that the cinema would have been closed for 8 to 10 weeks.”

*Elliot Finn,
Senior Project Manager*

Other Examples...

- Pre-Engineered Metal Structures
- Manufacturing & Distribution Centers
- Big Box Retailers
- Shopping Malls
- Aircraft Maintenance Facilities
- Stadiums and Colliseums
- Schools and other Large Public Structures

If the roof is flat, take a good look at it...
